

Christian Paul Gumanit

Software Engineer · Lapu-lapu City, Cebu · christiangumanit@gmail.com · linkedin.com/in/christian-gumanit

Summary

Strategic and results-oriented Software Engineer and Certified Microsoft Azure AI Engineer Associate with a specialized focus on AI development and web application architecture. Proven expertise architecting production-ready systems with ASP.NET Core, Laravel, and FastAPI. Google Certified Project Manager with a track record of leading Agile teams through the full project lifecycle.

Experience

Software Engineer — N-PAX Cebu Corporation, Inc.

August 2025 – Present

- Architected a full-stack Onboarding System featuring a RAG-powered AI chatbot to automate information retrieval and streamline orientation for new employees.
- Orchestrated end-to-end development of a corporate RAG chatbot as a Certified Azure AI Engineer Associate for high-level partner presentations.
- Managed an Azure-focused technical team's growth and certification roadmap toward Microsoft Solutions Partner status.
- Served as Project Manager for a cross-functional team building a file management platform.

Backend Developer — Xpertis Solutions, Inc.

February 2025 – May 2025

- Developed backend user integration for parent and admin portals.
- Handled user authentication for the enrollment portal system, covering use cases, API usage, and testing.

Project Manager — Alliance Software Inc.

September 2024 – December 2024

- Led web development of the SCSHelpDesk application, coordinating task distribution and schedules.
- Created technical documentation and helped develop core application functionality.
